### **S1351: FIRE DISTRICTS; AMENDMENTS**

Various changes to statutes relating to fire districts. The property owner where the services are provided, instead of the person receiving the services, is liable to the fire district for the costs of providing, upon request, emergency fire or emergency medical services outside of its own district boundaries when those services are otherwise unavailable, and these costs constitute a debt of that person and may be collected by the fire district. For counties in which a "metropolitan statistical area" (defined elsewhere in statute) has a population greater than one million persons, and in which a majority of all cities, towns and fire districts located within the metropolitan statistical area participate in a regional automatic-aid agreement for the provision of fire suppression, emergency medical and associated emergency services, a participating city, town or fire district is authorized to bill a nonparticipating city, town or fire district located within the metropolitan statistical area to recover the costs incurred for emergency response and mitigation services provided to any property located within the jurisdictional boundaries of the nonparticipating city, town or fire district. A fire district that contracts for fire and emergency medical services is authorized to designate the fire chief of the service provider as the fire chief of the fire district. On expiration of a fire district board member's term of office, the position is declared vacant unless otherwise filled at a general election. A vacancy that occurs on expiration of a term of office must be filled by appointment by a quorum of the district board within 90 days after the first day of the beginning of the new term of office. If the district board is unable to establish a quorum, the vacancy must be filled by the county board of supervisors. Fire district boards are required to obtain from a licensed or certified appraiser an appraisal of real property owned by the district to determine market value, and are prohibited from accepting a bid for the sale of that property that is less than 75 percent of the appraised market value. If the property has no market value or a net value of \$10,000 or less, the board is authorized to value the property by using a market analysis based on comparable sales. The board is allowed to sell or lease fire district property to any other governmental entity on any terms deemed to be advantageous to the fire district. The board is authorized to grant by unanimous consent an easement on district property for public purposes to a utility.

Staff who are certified in CPR and first aid must be available at the health care institution at all times. A health care provider or health care institution staff member is prohibited from pressuring or coercing a patient or the patient's health care decision maker to sign a do-not-resuscitate order or make a particular health care treatment decision. DHS is required to modify any existing crisis standards of care plan within 60 days after the effective date of this legislation to comply with these requirements. Emergency clause.

## **H2376: CLASS 2 PROPERTY; GUEST RANCHES**

The list of property classified as class 2 property for property tax purposes is expanded to include real property, improvements to property, and personal property of a "guest ranch" (defined). The valuation of a guest ranch as class 2 property constitutes a covenant between the county assessor and the owner of the guest ranch that the use of the property will remain unchanged for the duration of the deed restriction. If the property is converted to a different use in violation of the covenant, the county assessor is required to add to the tax levied against the property on the next tax roll a penalty equal to the difference between the total amount of property taxes that would have been levied on the property for the preceding ten years or the period of time the property was valued as class 2 property, whichever period is shorter, if the property had not been valued as class 2 property and the property taxes that were actually paid for the same period. The penalty must be paid before completion of the next property tax roll and is enforceable and subject to the same penalties and interest as if

the penalty were a tax levied against the property.

The list of satisfactory proof of U.S. citizenship that the county recorder may accept for voter registration is expanded to include an identification card issued by Arizona or the U.S. Due to voter protection, several sections of this legislation require the affirmative vote of at least 3/4 of the members of each house of the Legislature for passage.

## **H2720: BALLOTS; ELECTION CONTESTS; CERTIFICATES**

Various changes relating to elections. The Legislature retains its legislative authority regarding the office of presidential elector and by majority vote at any time before the presidential inauguration is authorized to revoke the Secretary of State's issuance or certification of a presidential elector's certificate of election. The Legislature is permitted to take this action without regard to whether the Legislature is in regular or special session or has held committee or other hearings on the matter. Any party to an election contest may request a jury trial, which must be granted and tried as other jury trials in a civil action, except that the statutory provisions for election contests prevail over any conflicting rules of procedure for jury trials. In an election contest jury trial, a court is prohibited from granting a motion to dismiss or a motion for summary judgment that would result in dismissal until after the jury has issued its verdict. Without regard to the system or method used to produce or tabulate ballots, the county recorder or officer in charge of elections is required to maintain a count of the number of physical ballots printed and the number of ballots otherwise generated in the following categories: early ballots, regular ballots, provisional ballots, federal-only ballots, and ballots generated in an

electronic form. The county recorder or officer in charge of elections is required to post that information on the county's website within one day after election day. The county recorder or officer in charge of elections is required to create digitized images of ballots and to keep the digitized images and the physical ballots as public records. At least ten persons from the general public who are registered voters in the county are allowed to observe the proceedings at the counting center at any time throughout the day. All observers must be allowed to observe each essential part of the proceedings at the counting center. When ballots are damaged or defective and cannot be counted by the automatic tabulating equipment, the images that are made of a duplicate of those ballots must be posted to the county's website within 24 hours after duplication along with the determination by the election board as to that voter's intent for each contest adjudicated. Any disruption in live video coverage of the custody of all ballots while the ballots are present in a tabulation room in the counting center will result in the members of the board of supervisors and the county recorder being deemed ineligible for reelection and barred from holding any public office in Arizona for ten years after the expiration of the term of office in which the disruption in video coverage occurred. ## **H2722: EMERGENCY VOTING; MANUAL; PHOTOGRAPHS; ELECTIONEERING**

Repeals statute allowing county boards of supervisors to authorize the use of voting centers in place of or in addition to polling places. An emergency voting center may be established only on occurrence of a genuine emergency such as war, civil unrest or natural disaster that makes it likely that large numbers of voters will be substantially impaired in their ability to vote on election day as compared to other elections. The elections instructions and procedures manual prepared by the Secretary of State is required to provide for transparency and election security to the maximum extent allowed by law. If any provision of the instructions and procedures manual conflicts with any statute, the provision of the instructions and procedures manual is unenforceable and statute prevails. In addition to the Secretary of State, the Legislature is required to provide personnel who are experts in electronic voting systems and procedures and in electronic voting system security to field check and review electronic voting systems and recommend needed statutory and procedural changes, including changes in the instructions and procedures manual. Also, a person is allowed to take photographs or videos of himself, his/her own ballot and any election worker, but is prohibited from taking photographs or videos of other voters or other voters' ballots.

## S1492: ELECTION LAW AMENDMENTS

Various changes relating to election law. A petition for a new political party to be represented by an official party ballot is required to contain the signatures of qualified electors in at least 1/4 of the election precincts of the county or municipality. The county recorder or the city or town clerk is required to review the petitions, select a random sample of 20 percent of the total signatures, individually verify and certify those signatures, and calculate and project the total number of valid signatures to determine whether the party will be recognized. The requirement for candidates to file a statement of interest with the appropriate filing officer no later than the date of the first petition signature on a nomination petition does not apply to candidates for elected office for school districts, community college districts or career technical education districts. A candidate's name printed on the ballot is prohibited from including a slogan, promotional word or phrase, or any word that does not actually constitute a nickname. The maximum number of days before an election that a county board of supervisors is permitted to cancel the election if only one person files a nominating petition to fill certain offices is increased to 105 days, from 75 days. If there is not a sufficient number of persons available to appoint precinct workers who are qualified voters of that precinct, the inspector, marshal, judges and clerks must be qualified voters of Arizona. The required test of election equipment is no longer required to be observed by at least two election inspectors, and is instead required to be observed by at least one representative of the two largest political parties based on statewide voter registration totals. County boards of supervisors are required to deliver the canvass to the Secretary of State within 14 days after the primary election, increased from 10 days, and the Secretary of State is required to canvass the return by the third Monday following the primary election, instead of the second Monday following.
