The Commission is required to compile and make available to insurance carriers, rating organizations, employers, public safety workers and workers' compensation pools the claim-related information collected to assist with the setting of workers' compensation insurance rates. In addition to the six uniform percentage deviations already authorized by statute, insurers covering firefighters and fire investigators are permitted to file one uniform percentage deviation that increases the statewide rates under the rating organization's rate filing for the class codes associated with firefighters and fire investigators to address the anticipated increase in losses and expenses for claims that are compensable due to the workers' compensation presumption. The deviation filing must be accompanied by analysis from an actuary that substantively illustrates the basis for the rate increase. Contains a legislative intent section. AS PASSED HOUSE

S1451: WORKERS' COMPENSATION; RATES; FIREFIGHTERS; CANCER

Fire investigators are added to the presumption that specified types of cancer and related diseases that result in disability or death are an occupational disease and are deemed to arise out of employment if specified conditions are met. All insurance carriers, self-insuring employers and workers' compensation pools that secure workers' compensation for firefighters and fire investigators are required to compile and report to the Industrial Commission claim and claim reserve information for all cancer-related claims filed by or on behalf of firefighters and fire investigators. The Commission is required to compile and make available to insurance carriers, rating organizations, employers, public safety workers and workers' compensation pools the claim-related information collected to assist with the setting of workers' compensation insurance rates. In addition to the six uniform percentage deviations already authorized by statute, insurers covering firefighters and fire investigators are permitted to file one uniform percentage deviation that increases the statewide rates under the rating organization's rate filing for the class codes associated with firefighters and fire investigators to address the anticipated increase in losses and expenses for claims that are compensable due to the workers' compensation presumption. The deviation filing must be accompanied by analysis from an actuary that substantively illustrates the basis for the rate increase. Contains a legislative intent section. AS PASSED SENATE

The levy is required to be the net of all cash in excess of ten percent of the annual payments of principal and interest in the current fiscal year from the previous year remaining in a segregated fund or funds for the levy. If a district sells general obligation bonds above par, the amount of "net premium" (defined) associated with a general obligation bond issue may be used only to pay costs incurred in issuing the bonds or as a deposit in a debt service fund and used only to pay interest on the issue of general obligation bonds. If used for any other purpose, and if the district has general obligation bond voter authorization and available capacity under its debt limitations, both the available aggregate indebtedness capacity of the district and the principal amount authorized at the general obligation bond election for the district must be reduced by the amount of net premium used for that purpose. For districts that are formed after August 9, 2017 and before the effective date of this legislation and for which the district board consists of the governing body of the municipality or county with two additional district board members who were initially designated by an owner who owned the largest amount of privately owned acreage in the district at formation, at any time after receipt of a petition signed by the owners of a majority of the privately owned real property within the boundaries of the district as measured by square footage or acreage, the district board is authorized to adopt a resolution to permanently remove the two additional appointed district board members and their positions on the board. If a community facilities district will be governed by a governing body with two additional board members who are initially designated by the owner who owns the largest amount of privately-owned acreage in the district, the resolution ordering formation of the district is permitted to state, or the

district board is permitted to adopt a resolution that provides, that those two additional members are permanently advisory nonvoting members. Emergency clause.

The list of property classified as class 2 property for property tax purposes is expanded to include real property, improvements to property, and personal property of a "guest ranch" (defined). As a condition for class 2 property tax valuation, the owner of a guest ranch is required to record a deed restriction with the county recorder that restricts the property to use as a guest ranch for at least ten years. The valuation of a guest ranch as class 2 property constitutes a covenant between the county assessor and the owner of the guest ranch that the use of the property will remain unchanged for the duration of the deed restriction. If the property is converted to a different use in violation of the covenant, the county assessor is required to add to the tax levied against the property on

the next tax roll a penalty equal to the difference between the total amount of property taxes that would have been levied on the property for the preceding ten years or the period of time the property was valued as class 2 property, whichever period is shorter, if the property had not been valued as class 2 property and the property taxes that were actually paid for the same period. The penalty must be paid before completion of the next property tax roll and is enforceable and subject to the same penalties and interest as if the penalty were a tax levied against the property.

The gross proceeds of sales or gross income derived from a construction contract with an owner of real property or the improvements to real property that does not exceed \$100,000 per unit for a "residential project" (defined) or \$1 million for a nonresidential project is not subject to tax under the prime contracting classification of transaction privilege taxes, and is required to be exempt from municipal transaction privilege and use taxes. Only the contract price is used to determine whether a contract exceeds the threshold amount described in this paragraph with no subtractions for amounts paid to subcontractors or any deductions or exemptions allowed. Project elements cannot be artificially separated from a contract to cause a project to qualify for this exemption. The Department of Revenue has the burden of proving that project elements have been artificially separated from a contract. A contract that primarily involves construction of any electricity generating facility or system installed on any commercial, residential or governmental property, including the maintenance, repair, replacement or alteration of existing improvements of an electricity generating or distribution facility, is not subject to tax under the prime contracting classification of transaction privilege taxes. H2720: BALLOTS; ELECTION CONTESTS; CERTIFICATES

Various changes relating to elections. The Legislature retains its legislative authority regarding the office of presidential elector and by majority vote at any time before the presidential inauguration is authorized to revoke the Secretary of State's issuance or certification of a presidential elector's certificate of election. The Legislature is permitted to take this action without regard to whether the Legislature is in regular or special session or has held committee or other hearings on the matter. Any party to an election contest may request a jury trial, which must be granted and tried as other jury trials in a civil action, except that the statutory provisions for election contests prevail over any conflicting rules of procedure for jury trials. In an election contest jury trial, a court is

prohibited from granting a motion to dismiss or a motion for summary judgment that would result in dismissal until after the jury has issued its verdict. Without regard to the system or method used to produce or tabulate ballots, the county recorder or officer in charge of elections is required to maintain a count of the number of physical ballots printed and the number of ballots otherwise generated in the following categories: early ballots, regular ballots, provisional ballots, federal-only ballots, and ballots generated in an electronic form. The county recorder or officer in charge of elections is required to post that information on the county's website within one day after election day. The county recorder or officer in charge of elections is required to create digitized images of ballots and to keep the digitized images and the physical ballots as public records. At least ten persons from the general public who are registered voters in the county are allowed to observe the proceedings at the counting center at any time throughout the day. All observers must be allowed to observe each essential part of the proceedings at the counting center. When ballots are damaged or defective and cannot be counted by the automatic tabulating equipment, the images that are made of a duplicate of those ballots must be posted to the county's website within 24 hours after duplication along with the determination by the election board as to that voter's intent for each contest adjudicated. Any disruption in live video coverage of the custody of all ballots while the ballots are present in a tabulation room in the counting center will result in the members of the board of supervisors and the county recorder being deemed ineligible for reelection and barred from holding any public office in Arizona for ten years after the expiration of the term of office in which the disruption in video coverage occurred. Previously, the difference in votes that triggered an automatic recount was the lesser of 0.1 percent or either a specified number of votes based on the office to be filled or 200 votes for a measure or proposition. S1240: HAND COUNTS; PRECINCTS; PROCEDURES MANUAL

For a county that uses voting centers, the ballots from each voting center are required to be separated by precinct before the random selection of precincts for a hand count occurs, and every ballot from a precinct must be grouped with the other ballots from that precinct. A voting center cannot be deemed a precinct for purposes of randomly selecting precincts for a hand count from a pool of precincts. States that if a provision in the elections instructions and procedures manual conflicts with state statute, the state statute prevails.

S1485: EARLY VOTING LIST; ELIGIBILITY (~~ELECTIONS; VOTING CENTER TABULATION~~)

Renames the "permanent early voting list" as the "early voting list." If a voter fails to vote an early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on the ballot, the county recorder is required to remove the voter from the early voting list and the voter will no longer be sent an early ballot by mail automatically. By December 1 of each even-numbered year, the county recorder or other officer in charge of elections is required to send a notice to each voter who is removed under this provision informing the voter that if the voter wishes to remain on the early voting list, the voter must confirm that in writing, sign the notice, and return the completed notice within 30 days after the notice is sent. S1492: ELECTION LAW AMENDMENTS

Various changes relating to election law. Modifies various filing deadlines. A nomination petition for the office of presidential elector is required to be filed 80 to 100 days before the general election, instead of 60 to 90 days before. A candidate's name printed on the ballot is prohibited from including a slogan, promotional word or phrase, or any word that does not actually constitute a nickname. The maximum number of days before an election that a county board of supervisors is permitted to cancel the election if only one person files a nominating petition to fill certain offices is increased to 105 days, from 75 days. The county recorder or the city or town clerk is required to review petitions for a new political party to be represented by an official party ballot, select a random sample of 20 percent of the total signatures, individually verify and certify those signatures, and calculate and project the total number of valid signatures to determine whether the party will be recognized. If there is not a sufficient number of persons available to appoint precinct workers who are qualified voters of that precinct, the inspector, marshal, judges and clerks must be qualified voters of Arizona. The deadline for Legislative Council to prepare and file an impartial analysis of the provisions of each ballot proposal is changed to 10 days preceding the regular primary election, instead of 60 days. County boards of supervisors are required to deliver the canvass to the Secretary of State within 14 days after the primary election, increased from 10 days, and the Secretary of State is required to canvass the return by the third Monday following the primary election, instead of the second Monday following.
